

Codonics Horizon Operating Software

Release Notes

Version 1.8.8 Release Notes

Summary

Version 1.8.8 software contains improvements that may considerably extend the operating life of Horizon® Imagers. Horizon XL Imagers are not affected by this release.

Products Affected

This upgrade applies to all non-XL imagers. Any Horizon Imager running software versions 1.5.x through 1.8.6 can be upgraded to version 1.8.8. Imagers running version 1.4.x must first be upgraded to version 1.6.0 before upgrading to version 1.8.8. If your Horizon Imager is running version 1.4.x software, please contact Codonics Technical Support.

The Imager Software Version can be determined using the control panel by viewing the Imager Info screen from the Utilities menu.

NOTE: Version 1.8.8 software must not be loaded onto Horizon XL Imagers.

Product Improvements

Horizon Version 1.8.8 software contains improvements to increase the operating life and reliability of Horizon Imagers in addition to improvements to the status print page.

Technical Support

If problems occur during software installation, contact Codonics Technical Support between the hours of 8:30AM and 5:30PM EST (weekends and U.S. holidays excluded).
